

Coursey Boulevard @ Sherwood Forest Boulevard Intersection Improvements

Improvements:

- The Coursey Boulevard at Sherwood Forest Boulevard Intersection Improvements project will add additional turning lanes to the intersection
- Additional lanes include two through lanes, two left-turn lanes, and a right-turn lane in all directions
- Traffic signal upgrades include new LED lighting, contributing to the efficiency of the improved intersection

Benefit to Citizens:

- The project will provide relief from the tremendous growth and traffic congestion the Coursey Boulevard at Sherwood Forest Boulevard intersection has recently experienced
- The project becomes the eighth Green Light Plan project to enter the construction phase, contributing to the overall traffic mitigation efforts for the City-Parish

Project Summary:

- Construction Cost: \$6.3 million
- Construction to begin: September 17, 2008
- Design Engineer: Justice and Huang Engineers, Inc.
- Contractor: Hardrock Construction, LLC
- GLP Program Manager: CSRS, Inc.
